FULL STACK ENGINEER

Highly motivated software engineer with **4+ years of experience** delivering production-ready applications across **5 industries**, including insurance, mobility, and consumer tech. Skilled in JavaScript/TypeScript, React, Node.js, Nest.js, MongoDB, and PostgreSQL, with a proven track record of shipping scalable products end-to-end. Comfortable working in fast-paced environments and cross-functional teams, with a strong focus on clean architecture, performance, and maintainability. Passionate about solving real-world problems through code and continuously learning new technologies.

KEY COMPETENCIES

Full-Stack JS/TS Development	Third-Party API Integration	Cloud Infrastructure & DevOps
Backend Engineering with NestJS	CI/CD & Deployment Automation	Data Engineering & Analytics
Database Design & Management	Cross-Platform UI Development	Software Architecture

PROFESSIONAL EXPERIENCE

AMA International Consulting

07/2024 - Current

AMA International Consulting is a software development firm focused on car insurance and claims management. It partners with WeDAT, a European automotive data company with branches in Italy, Spain, Germany, Greece, and more.

Backend Engineer

Developed high-quality web applications using Nest.js, PostgreSQL, MongoDB, Express, Jest, and NX. Contributed to the transition from a monolithic architecture to scalable microservices, enhancing system maintainability. Through strong ownership and execution speed, **increased project delivery output by 1.5x**, consistently accelerating timelines across teams. Delivered high-performance applications adopted by major clients including **AXA, Mercedes-Benz Leasing Italy, and WeDAT**.

Loyalreach

10/2023 - 07/2024

Loyalreach is a B2B platform focused on customer satisfaction through bulk SMS campaigns, surveys, and engagement tools. It offers white-labeled solutions tailored to clients' branding needs. One of Loyalreach's key partners is **Enterprise Rent-A-Car**, leveraging the platform to enhance customer communication at scale.

Fullstack Engineer

Developed high-quality web applications using Nest.js, React, MongoDB, TypeScript, and Next.js. Built several products from the ground up, including custom survey systems and white-labeled versions of existing platforms. Integrated third-party technologies such as Twilio, AWS S3, and SES to enhance functionality and scalability. At Loyalreach, helped build and maintain systems that handled **1M+ bulk SMS messages daily**, delivering promotional and feedback content at scale.

Technologist

05/2023 - 10/2023

Technologost is an outsourcing company delivering tailored software solutions across a wide range of industries. Its client portfolio spans customer satisfaction platforms, online coupon systems, and car insurance applications.

Fullstack Engineer

Delivered high-quality solutions using Nest.js, MongoDB, React, AWS, Twilio, Nx monorepo, and Docker. Played a key role in designing and implementing robust, scalable web applications tailored to the insurance industry. Architected and developed both the back-end and front-end of a car insurance claims platform from the ground up, **completing the initial system architecture within a single month** to meet urgent delivery timelines.

Picsart

03/2021 - 03/2023

Picsart is **Armenia's first unicorn** and a leading creative platform with over **150 million monthly active users**, offering AI-powered tools for photo and video editing, design, and content creation. Available across mobile and web, Picsart ranks among the top photo and video apps worldwide, with billions of downloads and a global user base spanning over **180 countries**.

Fullstack Engineer

Worked with cutting-edge technologies including Docker, Kubernetes, Nest, Express, Mocha, React, Elasticsearch, and Databricks to build and maintain scalable systems. Implemented Adyen for managing the subscription and payment infrastructure. Played a key role in developing and maintaining features used daily by millions of active users. As the **youngest developer ever hired at Picsart**, successfully implemented the promotional coupons feature for the monetization system within a single sprint.

SKILLS

JavaScript | TypeScript | Nest.js | MongoDB | PostgreSQL | Databricks | Kubernetes | Docker | Node.js | Redux | React | React Native | Next.js | Software Architecture | Twilio | Adyen | Amazon S3 | SES | EC2 | Github Actions | Azure DevOps tooling | Digital Ocean Tooling | NX Monorepo | Express.js | Mocha | Jest

EDUCATION & CERTIFICATIONS

Bachelor's degree in Computer Science

American University of Armenia

Udemy Certificates

SOLID Principles: Introducing Software Architecture & Design

The Complete Node.js Developer Course (3rd Edition)

Docker Mastery: with Kubernetes +Swarm from a Docker Captain

Picsart Academy Certificates

React JS (advanced) online course

Intermediate JavaScript online course
